

Warnham Parish Council Newsletter

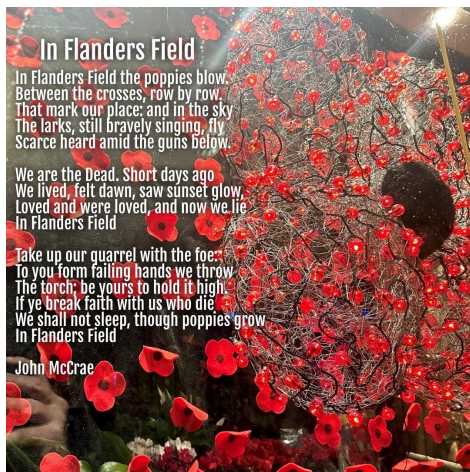

Issue 14

Autumn 2024

Welcome to Warnham Parish Council Newsletter

The parish of Warnham is a thriving community incorporating the parish of Warnham as well as hamlets and small rural communities of Kingsfold, Winterfold, Northlands, Durfold, Station Road, Goosegreen and part of Rowhook which are all surrounded by open countryside.

The Parish council is committed in providing, the community, to the best of it's ability, an excellent service that supports and nurtures it's surroundings.

Please do keep an eye on your neighbours by doing regular welfare checks. Especially during periods of uncertain weather ie. Heat and stormy weather.

Warnham Parish Council

Autumn Newsletter—Message from Cllr Pavey

Dark evenings are upon us so please be seen as you walk, cycle, jog or ride along parish lanes and roads.

Cllr Asset Walk About

Councillors not deterred by rain as they check the parish assets.

Traffic in our parish is again high on the agenda for the council and we continue to raise the issue with highways to the speed and volume.

The survey conducted on Bell Road has shown a small reduction in speed since the 20mph reduction and roundels appeared on the road. Sadly, this reduction means no further measures are to be forthcoming from highways. This has not stopped the council from engaging with WSCC as we seek other initiatives to tackle this increasing highway problem.

Good news, working together, it would seem at last the lorry access to Field Place is resolved.

School time is causing a few issues as school traffic streams out of the car parks. Can we please ask all to be considerate to other road users, those that live in homes close to the school, and watch for pedestrians crossing Church Street to reach cars and the village shops.

'We will remember them' this month as the council join others in laying a poppy wreath at the parish war memorial.

Attending the Neighbourhood Watch AGM, it was good to meet up with long standing members of the Watch as well as hear from Sussex Police to the 3.7% reduction in crimes in the Horsham area. The police receiving new recruits making a difference to the community policing team and are working across agencies with the transport police and immigration. Horsham will also have a police pod near the Carfax with specific campaigns highlighted for the Christmas period to tackle retail crime, and increased night patrols.

Warnham parish has needed a new Neighbourhood Watch co-ordinator for some time, so if you are interested in becoming involved, you can find out more at www.horshamnhw.org.uk

The parish faces some contentious issues. The Horsham Local Plan is progressing through inspectorates' hearings to decide if it is sound. Warnham features in this Plan to receive additional housing to the 60 of Tillets Lane. A major concern must be the real lack of infrastructure to support the proposed housing in our parish and the ramifications of housing surrounding us.

The result of the Plan will mean that the Warnham neighbourhood plan requires updating.

Cllr Pavey attending NHW Meeting

Warnham Parish Council

Autumn Newsletter—Message from Cllr Pavey

A traveller's site on what was a wooded area along Marches Road. Residents have contacted the council concerned about this illegal site and the subsequent planning application; the vineyard adjacent having recently been sold. The council has discussed this issue with Ruspur council as they face similar issues of woodland being removed for camp sites.

We face a public consultation in the first quarter of 2025 over airspace change. This will go ahead with or without a new runway. The council met with the Horsham MP to discuss the fact that Gatwick propose only one new departure route directly over our parish as with the trial of 2014 (ADNID). The council has agreed to team up with Slinfold and Ruspur Parish Council, to demand that Gatwick offer alternatives to this new route in the consultation.

Dance shoes at the ready for the St Margaret's Christmas Dance on 7th December. For tickets contact g-read1@sky.com

Thank you Cllr Pavey

Caring for someone with dementia?

We are a charity providing support for people with early-stage dementia and respite for their carers

We offer day care in small groups within the comfort of our hosts' family homes while giving respite to their carers

The day includes all refreshments, a two-course, home-cooked lunch and optional memory-boosting activities. Our hosts are carefully vetted and fully trained. And transport is generally available, too.

Warnham Parish Council

Autumn Newsletter—Message from Cllr Gurling

For those among us, not already aware, as we lead up to Christmas I run two charitable collections.

The first is a collection of advent calendars for the children at Chestnut Tree House, childrens hospice. Historically I have collected for children in the care of the state and the hospice, but unfortunately it has become impossible to find a state run children's home that will accept the calendars, so this year I have decided to donate all of the calendars I receive to the hospice.

Chestnut tree house not only treat children with terminal illness, they also offer specialist and respite care for children with severe illness and disability. I feel a special pleasure being able to donate calendars for the children many of which may not otherwise receive one as their special care needs place a strain on family finances.

For this collection I am asking for donations of Christmas advent calendars, the type with little chocolates behind the door if possible however not every child can have chocolate so other treats or picture calendars are also appreciated. Please donate what you can before November 29th so that I can get them to the hospice in time for advent.

My second collection is for the Salvation Army Food Bank. Christmas is always a particularly difficult time when you're struggling to put food on the table. It's an unfortunate truth that we need food banks and with cost of living still high, they are essential. For this collection I ask that for 24 days between now and December 14th you place an item of food into a box for the food bank. Just as opening an advent calendar gives you a daily treat, this reverse version gives a treat of food to someone in need. But please, as you donate food, think of including something festive, a Christmas cake, packet of mince pies, or Christmas biscuits. No alcohol though, the food bank will not accept it. Food banks often find they are short of certain items, if your not sure what to give take a look at the trussel trust website for suggestions.

The first time I did this I included Christmas treats and received a letter via the Foodbank from a lady who opened her box of food and found mince pies, she said it touched her so deeply she cried, she never thought Christmas would come to her home, that the food would be the staples that she needed to live, but with them she found a piece of festive joy.

When you have made your collection please either drop it off at my house or drop me a message to arrange collection.

If you are able to make donations please have them ready by the 29th November for the advent calendars and 14th December for the food bank.

Thank you Cllr Gurling

What's going on...

Let's Protect Our Hedgehogs!

As the season of mists and mellow fruitfulness approaches, Warnham's hedgehogs are hunkering down in their cosy nests. They love to nest in our gardens, under hedges, and especially in piles of leaves and garden debris – perfect hideaways for hibernation!

Bonfire Alert! If you're planning a bonfire, remember that these piles are irresistible to hedgehogs looking for shelter. To avoid a tragic end, build your bonfire on the day you plan to burn it, or move the pile before lighting to ensure no prickly friends are snoozing underneath.

Garden Safety for Hedgehogs:

- Always check your bonfire before striking a match!
- Be extra careful when strimming, mowing, or using garden forks, as hedgehogs can suffer serious injuries from garden tools.
- Why not leave a little wild corner in your garden? Piles of leaves, long vegetation, and brambles create a safe haven for hedgehogs to build their winter nests.

Hedgehogs do so much good in our gardens, helping control slugs and other pests. Let's return the favour and make sure they have a safe space to hibernate this autumn!

Speed Watch in the community

Our community Speed Watch team are looking for willing volunteers to help monitor the traffic throughout the parish. Please contact the clerk on email if you would like to be added to the team. Speed Watch is now branching out to Kingsfold. The Kingsfold Residents Association is also looking for volunteers to help monitor the traffic. Please do get in touch if you are able to help.

Salt Bins

Over the last year, the parish council has had to replace not one but three salt bins throughout the parish. This is an extraordinarily high number. There are many factors as to why, old age, damage and even being stolen. The cost of replacing these is in the region of £400 each time. If anyone sees anything in relation to damage or being stolen, please do let the clerk know as soon as possible.

[If you haven't already, why not sign up to our newsletter](#)

What's going on...

Fire and Smoke Alarms

Does anyone know of someone classed vulnerable? Do they need a new Smoke Alarm? Or benefit from having a Safe & Well visit? West Sussex Fire & Rescue have funds to supply new Smoke Alarms. Fire & Visit <https://>

Have your say about electric vehicle chargepoints in your area.

In 2035, the UK government is banning the sale of new petrol and diesel vehicles. Around 40% of drivers are without off-road parking, so a network of public chargepoints is needed so people without driveways can charge their EVs easily and conveniently.

The West Sussex Chargepoint Network is proposing to install electric vehicle (EV) chargepoints in several areas across the county.

West Sussex chargepoint network

WEST SUSSEX CLIMATE ACTION

Have your say.

Public consultations are taking place across West Sussex. Find out more by scanning the QR code or visiting: yourvoice.westsussex.gov.uk/ev-chargepoints

Alternatively you can call the West Sussex EV Team on 0330 222 7770 or email evchargingpoints@westsussex.gov.uk

To view the proposed locations, please scan the QR code or visit the Connected Kerb website connectedkerb.com/westsussexresidents

Important information about electric vehicle chargepoints coming soon near you.

What is the West Sussex Chargepoint Network?

West Sussex County Council along with its district and borough partners in Adur, Arun, Chichester, Crawley, Horsham, Mid-Sussex and Worthing are working together to provide a network of publicly available EV chargepoints both on-street and in district & borough car parks.

We are installing electric vehicle (EV) chargepoints near you.

The West Sussex Chargepoint Network is working with Connected Kerb to install electric vehicle chargepoints across West Sussex. You are receiving this information leaflet to inform you about plans to install chargepoints in your area as part of the third phase of the project.

Who is funding the installation and maintenance of the chargepoints?

The contract with Connected Kerb is a concession contract, meaning that West Sussex County Council and its district and borough partners are not required to contribute any funding towards this project. The project is also supported by central government funding as and when available.

What will the chargepoints look like?

The discreet 'Gecko' 7kW chargepoints (pictured below) have been designed to be small and unobtrusive. Each chargepoint has two sockets, to allow two EVs to charge at the same time. There will also be a feeder pillar, to house the electricity, similar to other electrical boxes you see on pavements. Renewable energy sources will power 100% green electricity.

Have your say.

Public consultations are taking place across West Sussex. Find out more by scanning the QR code or visiting: <https://yourvoice.westsussex.gov.uk/ev-chargepoints>

If you are unable to complete a survey, please call the West Sussex EV Team on 0330 222 7770. Alternatively, please email evchargingpoints@westsussex.gov.uk

To view the proposed locations or suggest one for future installation, please scan the QR code or visit the Connected Kerb website www.connectedkerb.com/westsussexresidents

Your questions answered.

How have these locations been chosen?

The proposed locations have been selected for the installation of EV chargepoints because either a member of the public has requested a chargepoint in the area, or it has been identified that there is a need as there is little or no residential access to off-road parking and a lack of nearby public chargepoints.

I don't have an EV, will I still be able to park my car?

We're not proposing to change any of the parking restrictions at the moment, so other cars will still be able to park as before, although we hope people will be considerate and allow EV drivers to charge. Any future change to parking restrictions would go through the normal consultation process.

Why do we need to install EV chargepoints?

In 2035, the UK government is banning the sale of new petrol and diesel vehicles to support the move to more environmentally friendly options and reduce our reliance on fossil fuels. Around 40% of drivers are without off-road parking therefore a network of public chargepoints is required so people without driveways can charge their EVs easily and conveniently.

Why switch to an electric vehicle?

EVs boast lower running and maintenance costs with an easier and more convenient drive. With a growing second-hand market and increasing numbers of workplace car leasing schemes, long-term lease options, government grants and vehicle tax exemptions, EVs are becoming more affordable for more people. Lower emissions from EVs means cleaner air for everyone.

How do I find the locations of other chargepoints in the chargepoint network?

You can download the Connected Kerb app via the Appstore or Google Play or visit www.zasp-map.com.

Consultation Form Template Version 10/2019 1/1

Electric Vehicle Infrastructure FAQ's

Parking and Access

Will we lose parking spaces?

No, there will be no change to parking. There is no traffic regulation order (TRO) being enforced on any of the proposed EV bays in West Sussex. We are not reducing or increasing the number of parking spaces, but instead adding the future ability to charge to already established parking areas.

What happens if you restrict the bays in the future for EVs only?

If electric vehicles become the dominant type on West Sussex roads, WSCC may consider restricting certain bays for EV use only. This will be decided on a case-by-case basis, and any changes would be subject to a full public consultation, ensuring that the affected area has an opportunity to provide input.

Why can't the chargers go in the nearby car park?

The funding we receive from the central government comes with strict guidelines. One rule is that car parks can only be considered if there isn't a viable on-street location nearby. Car parks are considered a 'last resort'. While future plans may include EV points in nearby CDC car parks, there are no current plans to do so.

I want a cross-channel gully installed in the pavement outside my home.

While cable channels (cross-channel gullies) may be considered in the future, WSCC is awaiting government legislative guidance. This guidance will address the legal and safety issues around cable connections for home EV chargers. Once published, WSCC will make informed decisions on this.

What's going on...

Funding and Costs

Why aren't you spending the money on other services?

The funds used for this programme come from a mix of central government grants and private investment from our ChargePoint operator, Connected Kerb. This means no local council funds (WSCC) are being used, and no money is being taken from other WSCC services.

On-street public chargers are expensive.

While on-street chargers can be more expensive to install than off-road options, Connected Kerb chargers are among the cheapest public charging solutions in the UK. They provide an affordable option for residents who do not have off-road parking and the ability to charge at home.

Why is there no planning literature?

These ChargePoints do not require formal planning permission, which is why no planning literature has been circulated. They fall under permitted development rights, making the installation process quicker and easier.

Futureproofing and Infrastructure

No one on our street has an EV. Why are you installing here?

While no one in your immediate area may currently own an EV, the sale of new internal combustion engine (ICE) vehicles will be phased out by 2030. Central government funding allows us to provide the infrastructure now, ensuring that the community is prepared for the future shift toward electric vehicles.

Environmental Benefits of EV Chargers

Installing EV chargers is part of a larger effort to reduce air pollution and greenhouse gas emissions. By providing convenient access to public EV chargers, we encourage more residents to switch to electric vehicles, which produce zero tailpipe emissions. This helps improve local air quality, reduce carbon emissions, and contributes to West Sussex's overall goal of achieving a greener, more sustainable environment.

Can EV chargers be installed in conservation areas?

There are no specific restrictions preventing the installation of EV chargers in conservation areas. We take care to ensure that installations are sensitive to the character of the area and that the visual impact is minimal. The need to install future-proof infrastructure is balanced with preserving the aesthetic integrity of these locations.

Additional Considerations

What happens if I want to install my own home charger?

Residents who wish to install their own EV chargers at home are encouraged to do so, provided they meet the necessary legal and safety requirements. WSCC recommends consulting with a certified installer to ensure compliance with local regulations.

Are electric vehicle chargers safe to use?

Yes, electric vehicle chargers are designed with safety as a top priority. The chargers installed by Connected Kerb comply with all relevant safety standards and regulations. They are equipped with multiple safety features, including protection against electrical faults, weatherproofing for outdoor use, and secure connections to prevent overloading. Additionally, all installations are carried out by certified professionals to ensure that both the public and the infrastructure are protected. Regular maintenance and inspections will also be conducted to ensure continued safe operation.

What else is going

Defibrillators

Did you know that the parish has two defibrillators? If you didn't, you do now. Did you also know the location of them? Well, if you didn't you will now. One is located on the Village Hall wall and the other is located just outside the Parish Rooms, at St Margaret's Church. The Parish Council holds two free defibrillator training sessions a year. If anyone is interested in joining the waiting list for a space, please let our Clerk know.

Have noisy or speeding vehicles been a problem where you live?

We want to know about the road safety issues that are impacting your community.

You can help us by filling in this survey and telling us what's happening on the roads in your local area: <https://www.smartsurvey.co.uk/s/GPDC57/>

This information will help us build a picture of where we need to tackle road safety issues and how we monitor our summer road safety intensification, Operation Downsway.

This year, every weekend between April and September officers from teams across the force have taken part in the dedicated operation, providing a highly visible and unmarked presence on the road network in Surrey and Sussex, engaging, educating, and taking enforcement action where necessary.

By engaging with road users, we aim to continue to reduce the number of collisions and deaths on our roads. [#OpDownsway](#) The survey will be live for the whole of November.

The Parish Council are aware of the increasing poor state of our roads around the parish. Unfortunately, any highways issues falls under the responsibility of WSCC Highways. The Parish Council is unable to add any extra pressure to WSCC Highways but we would encourage residents to report and keep reporting any highways issues online at : <https://www.westsussex.gov.uk/.../make-an-enquiry-or.../>. Issues that can be reported are, potholes, damaged signs, fading road markings, footpath issues such as overgrowth, obstructions, street lights out, broken bollards. Please help us keep our community safe by reporting any issues.

Wild About Warnham Noticeboard

Early booking advised!

Wild About Warnham is pleased to announce that we have booked the renowned wildlife expert, Michael Blencowe to give a talk on Friday 31 January 2025. Through his unique combination of natural history knowledge, passion and humour (and a few tall tales of his own adventures) Michael is well known as one of the most popular and engaging public speakers in Sussex and beyond. Michael's will be talking about '100 Days of Wildlife in a Sussex Garden'

In March 2020 Michael Blencowe travelled to a place that he had never really explored before – his own back garden. Michael documented 100 days of his garden wildlife observations and what he discovered amazed him. Learn all about garden wildlife - and how you can make your garden wildlife friendly!

The talk will be in the Village Hall at 7.30p.m. Doors open 7.00pm. Tickets £4.00 per person.

Recent WAW talks have been sell out occasions, so early booking is advised. To reserve your place, please email butterfly0@btinternet.com with your contact details and state how many tickets you require.

Wild Bunch Winter Work Parties

The next two work parties in the Butterfly Fields take place on Saturday 16 November (from 9.30am until 12.30pm) and Tuesday 10 December with Horsham Green Gym from 10am until 1pm.

Our work will entail cutting back overhanging vegetation to keep clearings and glades open for the many sun-loving species that live in the fields.

Come along and join us for some gentle exercise and a chat in the fresh air. Cake will be provided! Stay for as much time as you can spare. Do as much or as little as you can manage.

Contact Anne Davies for more information and to let us know if you plan to attend. Email: anneldavies@yahoo.com

Winter Fair

Wild About Warnham will be at the Winter Fair on **30 November**. Do come along to say 'hello' and find out more about what WAW is doing. Also, we will have some free wildflower plug plants to give away!

David Bridges

Wild About Warnham Coordinator

Ditch Maintenance Throughout the Parish of Warnham

Managing flood risk

How we work with our partners to manage flood risk in West Sussex.

As the Local Lead Flood Authority (LLFA) we oversee local flood risk, including the management of groundwater flooding, surface water run off and ordinary watercourses. We work closely with the Environment Agency, district and borough councils, water companies, regional flood and coastal committees and internal drainage boards. Find out more about [their role in managing flood risk](#) on GOV.UK.

Together with our partners we:

- commission works to manage flood risk from surface run off or groundwater
- request information from any person in connection with the authority's flood and coastal erosion risk management functions
- give consent for any changes to ordinary watercourses
- record, investigate and publish reports on significant floods in the county
- record flood assets and identify those responsible for maintaining them
- designate any features which have a significant impact on flood risk so they cannot be removed or replaced without consent develop a [Local Flood Risk Management Strategy](#) for managing surface runoff, groundwater and ordinary watercourses throughout West Sussex ensure that developments drain in a manner that does not increase flood risk elsewhere, as well as trying to reduce the risk of flooding wherever possible.

Riparian ownership - your responsibilities

If you have a watercourse, ditch, stream, river or culvert on or next to your land you are known as a 'riparian owner'. Riparian owners are responsible for the maintenance and upkeep of watercourses on their land to ensure that they are not a flood risk to other people or property. Well maintained watercourses can significantly benefit the local community by reducing flood risk and creating habitats for wildlife.

The riparian responsibilities for landowners under law are to:

- ensure the flow of water is not obstructed or polluted
- maintain the bottom and sides of the watercourse (including managing any trees and vegetation growing on the banks)
- remove any obstructions, such as rubbish, fallen branches or garden waste
- maintain any structures (such as trash screens, culverts, weirs and mill gates) on it.

Find out more about riparian ownership: [Ditch the problem flyers \(PDF, 1.5MB\)](#) [Ditch the problem leaflet \(PDF, 2MB\)](#) [Good practice for watercourse maintenance \(PDF, 789KB\)](#) [Riparian ownership - video](#)

Advice for businesses and householders

Visit the Environment Agency website to [find out if you are at risk from flooding](#).

Follow our [flooding advice](#) to prepare your property.

Southern Water has information about [what you should and shouldn't put down your drains](#).

Civility & Respect for everyone.
Let's all be kind to one another..

BULLYING AND HARASSMENT STATEMENT

We treat everyone with courtesy and respect and ask for the same in return. We ask that you treat your councillors

and council staff courteously without violence, abuse, or harassment.

Councillors and council staff have the right to carry out their civic duties and work without fear of being attacked or abused. Any behaviour whether that be verbal, physical or in writing, which causes either councillors or council staff to feel uncomfortable, embarrassed, or threatened, is totally unacceptable.

The zero-tolerance policy includes abuse, aggression or threats made in person, over the telephone or in written communication, including on social media. The council considers threatening behaviour to be:

Attempted or actual aggressive, or physical actions made towards any councillor or member of staff.

The use of aggressive, or abusive language, (including raising of the voice, swearing, shouting or in writing) which threatens or intimidates councillors or council staff".

This policy applies throughout all Council Meetings, but it also applies to any Councillor or Council Staff away from Council Meetings

STOP BULLYING

IN COLLABORATION WITH SLCC, NALC, GWA, COUNTY ASSOCIATIONS

Dates of Next Meeting

The parish council works as a team seeking to help all residents. We very much welcome you to attend our meetings or getting in touch via the clerk's email address so that matters can be discussed at open meetings. All meetings are in the Parish Rooms, St Margaret's Church.

17th December 2024

Planning & Highways Committee 7.00pm

Full Council Meeting— 7.45pm

Councillor Vacancies

With the elections now behind us, Warnham Parish Council finds that we are uncontested, however, we are now down to seven councillors. We are treading water. For a council to run we have to be quorate which means One third of the total number of councillor allocations. Warnham Parish Council has 11 seats to fill in total. We are 4 councillors short. So, now would be a perfect time for anyone wishing to stand and serve on council to come forward and be co-opted on. The process is much simpler than election papers. If anyone is interested in picking up this mantle please do speak with a current councillor or ex councillor to find out more about the role, or ask the clerk for more information. clerk@warnham.org.uk.
